The Memphis, Selma and Subscribed and sworn to before me this al each week some of the delays made on this route. It may do no good, but we may succeed in 3bowing to the people what folly has been practiced by this great and glorious government in using steam to transport our mails. Our forefathers had Erb said yestarday that when the Kansas City road first came into Memphis he found Broadway laid down on the map as a street, and asked right of way from the under a misunderstanding, but he has since obtained a revolution. If Mr. Vilas is "standing much better title to it, and one that he can defend in the courts of law. The

A FIXED FACT.

The Rails for Building the Lines of the Citizens' Railway Company Ordered by Wire.

Right of Way Granted-Work to Begin at Once-Mr. Raphael Semmes the Superintendent.

There seems to be no reason for further doubt that the Citizens' Railway Company is a bona fide corporation, and that it means business in the fullest sense of the term. It is a fact beyond dispute that as soon as right of way was granted by the Council yesterday and their action telephoned to a member of the company waiting to hear the result, that a telegram was written out and sent ordering the rails, spikes and other materials for the

once operated, and that they have a claim upon it, it is not believed that in ention to introduce the same and of service st other points along the Mississippi river, and also on the Ohio where it is practicable.

City Lournal, commenting not funds at present available for building not funds at present available for building is practicable.

The Arkansas City Journal, commenting on the above dispatch, says: "The above is an Associated Press dispatch, and when taken in connection with with the facts as CONSTRUCT NEW LINES.

Until yesterday there were few believers in the sincerity of the new company, which has been unequivocally denounced as a scheme to "raise the wind," but the submission before the Council yesterday of a formal petition signed by Napoleon Hill as sides of the river, protesting in the most emphatic terms a ainst this change, giving the reasons why it should not be carried the reasons why it should not be carried was given yesterday promises

elect a President wi hont difficulty, a host of supporters must be got somewhere, and sensible man who occupies the position of Oleveland would strive first to administer planned the carrying of the mails (according to the Postmaster-General's ideas), and that was by land, and according to bis theory it should continue so now. Stop the transportation of the mails by rail and river and we will produce such an uprising in the government as will bring about a revolution. If Mr. Vilas is "standing to the affairs of the government for the whole people, at d in so doing he would be very apt on make new supporters for the Democratic party. To say that Mr. Cleveland is not trying to make his administration poular would be preposterous. He would be a very curious man if he did not strive to make it one of the most stuccessful as well as one of the most the affairs of the government for the whole most successful as well as one of the most popular administrations.
